Sharing Preferences

Who would you like to allow to see your charts, graphs, readings and cycle data?

- ☒ No one but me and OvaGraph Support
- ☐ My hand-picked list of OvaGraph Users and OvaGraph Support
- ☐ All logged in users of OvaGraph
- ☐ Anyone: My readings and cycle data are publicly accessible

Chart Preferences

Basal Prediction Mode

Basal Prediction mode to use for OvaChart display.

Minimum Cycle Days Per Graph

Set the graphs to display at least cycle days.

You may decide how many days will be showing when you start a new cycle. If your cycle exceeds this number, the extra days will be automatically added to your graph.

- ☐ Hide graph titles
Check this box if you are familiar with your chart and wish to hide the titles of the graphs; this will allow you to see more graphs without having to scroll as much.
- ☐ Hide Alerts
Check this box if you wish to hide the OvaGraph Alerts which may periodically appear above your chart.

Display The Following Charts

- ☒ Date Bar
- ☒ Day of Week
- ☒ Temp Count
- ☒ Luteal Day
- ☒ Peak Day / Fertile Phase
- ☒ Basal Body Temperature
- ☒ Cycle Day 2 / Intercourse

- ☐ Ovulation Day (per BBT)
- ☐ BBT Coverline

Please choose which cycle information to display with your charts.

Data Entry Preferences

Express Lane fields

- ☒ BBT
- ☒ Intercourse

Select which fields you want to have in your Express Lane for new readings.

Preferred Temperature Units

Temperature Accuracy

Do you intend to chart to the tenths place or the hundredths place? Please select the temperature scale that matches the degree of accuracy of your thermometer.

- ☒ Auto Correct Data?
Check this box to cause the website to automatically make minor adjustments to your data for you, including keeping your cycles numbers in the correct order as well as adjusting cycle end dates. Major adjustments will still need to be reviewed and selected using the link at the bottom of My Cycles page.

Update Your Settings
